NOD yr hyfforddiant yw trafod sut i brif-ffrydio'r Gymraeg a dwyieithrwydd o fewn y sefydliad a hybu dealltwriaeth am egwyddorion Hyfforddiant Ymwybyddiaeth Iaith trwy ystyried:

Pam bod angen fynd i'r afael â'r Gymraeg – deddfwriaeth; polisi; cydraddoldeb a chynhwysiad a phroses normaleiddio defnydd iaith.

Beth yw'r elfennau craidd y mae angen eu hystyried – demograffeg gyfoes; ymchwil a chanllawiau; iaith a grym; profiad y siaradwr dwyieithog; hanes y Gymraeg a'r cerrig milltir.

Sut gall y sefydliad datblygu darpariaeth ddwyieithog sy'n arwain y sector a gwneud cynnig rhagweithiol i staff a dysgwyr sy'n well na'r gofyn statudol.

The **AIM** of the training is to address the mainstreaming of the Welsh language and bilingualism within the organisation and to foster an understanding of the principles of Language Awareness with reference to:

Why we need to address the Welsh language – legislation; strategy; policy; equality and inclusion and the process of normalising language use.

What are the core factors for us to consider – contemporary demography; research and guidance; language and identity; the experience of the bilingual speaker; the historical context and milestones.

How we can develop sector leading bilingual provision making an active offer to staff and learners which exceeds legislative requirements.
